

Film Making at YMCA Camp Ingersoll

Dear Parents,

Welcome to our Film Making Camp. Every morning two counselors will guide the campers through the preproduction, production, and post production phases of film making. These processes include: brainstorming, creating a storyboard, filming, and editing their creations.

Campers will learn how to set up the computer and camera, as well as how to transfer their data from their camera to their computer. In their groups they will create commercials, and short films. Following production they will insert transitions, add audio, and cut unnecessary footage in order to create a finished film. This year we are also adding a brand new initiative to Film Camp. At least once a week Film Camp will post one a short you tube video online. This video will be the Camp Ingersoll News. Campers will choose what they think is important to highlight. We are excited to put our skills to use and let everyone know all that Camp Ingersoll has to offer.

Every day in Film Making is going to be a new experience with different challenges. Campers are not only going to learn how to use camcorders and computers but they will also make new friends, build relationships, and participate in general camp activities all while learning positive character values through our YMCA Camp Ingersoll Film Camp Counselors. We hope you and your camper are as excited for this coming summer as we are! We look forward to seeing you soon.

Sincerely,

Ben Silliman
